Welcome

This restaurant in the forest, St. Ottilien, has existed for 500 years.

For the people of Freiburg, this green oasis is a favourite place for excursions that can be reached easily, either on foot, by bike or even very comfortably by car.

For many, St. Ottilien carries a piece of remembrance, whether it is the first date, a childhood memory, or the baptism of their children. In the chapel of St. Ottilien, couples of all denominations are wed and then spend the most beautiful day of their lives in this extraordinary atmosphere.

It is very important for us that our vegetable and fruit are regionally grown. When choosing our meat, we also make sure of a humane livestock farming. Generally, all our products are picked with a lot of care and we get our coffee from the Fair Trade dealers.

Sustainability and more awareness for the world we live in plays a big role to us.

This is how we try to guarantee the best conditions for a great stay, regardless if in a small group or at an individually arranged party of every size.
